Objective

Motivated Full-Stack Web Developer and Data Science Graduate with strong knowledge in HTML, CSS, JavaScript, PHP, MySQL, and React.js. Skilled in developing responsive and user-friendly web applications with experience in frontend and backend development, database management, API integration, and web security principles. Strong problem-solving, communication, and teamwork abilities with hands-on project experience in scalable web application development and agile-based environments.

Experience

- **Sharpend Mind Technology, Data science internship** 30/12/2024 - 31/03/2025 - Skilled in Data Preprocessing, Exploratory Data Analysis (EDA), and Machine Learning model development for customer behavior analysis and predictive analytics. Experienced in handling large datasets, model optimization, data visualization, and statistical analysis using Python, SQL, TensorFlow, Scikit-learn, Power BI, and Matplotlib. Strong understanding of data-driven decision-making, predictive modeling, and analytical problem-solving in real-world applications.

Education

- **The American College Madurai** 2023-2025
M.Sc Data Science
8.9
- **VHNSN College Virudhunagar** 2020 - 2023
B.Sc Physics
8.7

Skills

- Programming Languages: Python, SQL, JavaScript, PHP (Laravel), React.js, HTML, CSS
- Tools & Libraries: Power BI, Excel, Matplotlib, Scikit-learn, TensorFlow
- Machine Learning: Regression, Classification, Clustering.
- Other Skills: Data Preprocessing, EDA, Dashboarding, Statistical Analysis
- Soft skills: Effective Communication, Team Management, Quick Learner, Critical Thinking, Problem Solving.

Projects

- **Pharmacy Management System - Frontend and Backend Project**
Developed a Full-Stack Pharmacy Management System with frontend and backend integration for medicine inventory management, billing automation, prescription tracking, customer management, stock monitoring, supplier management, sales reporting, and invoice generation. Implemented secure database management, user authentication, and API integration to ensure efficient, scalable, and user-friendly pharmacy operations.
- **Smart Restaurant Billing & Management System**
Developed a Full-Stack Restaurant Management System with frontend and backend integration for order management, billing, table reservations, menu management, customer handling, inventory tracking, sales reporting, and invoice generation, along with secure database management, authentication, and API integration for efficient restaurant operations.
- **Predictive Analytics for Raw Material Spillage Reduction in Tire Manufacturing Using machine learning and IOT**
A system to reduce raw material spillage in tire manufacturing using Machine Learning and IoT. It predicts spillage and helps take actions to improve production efficiency

Certifications

- ●MongoDB from ICT academy ● Diploma in completion in Ui path ● Full Stack Web Development – TN Skills
